

2020 Public Works Improvements Verleen Avenue

As part of the 2020 Public Works Improvement Project, the Village of Waunakee will be resurfacing several streets in your neighborhood. The project has been publicly bid and the Village Board awarded the project to Payne & Dolan, from Fitchburg, Wisconsin.

Verleen Avenue will be resurfaced from North Century Avenue to North Madison Street and is scheduled to begin soon. The Contractors will be milling and pulverizing the existing asphalt pavements, completing any street base (gravel) repairs, utility repairs and adjustments (as needed), and re-grading the street in preparation for the new asphalt surface.

In order to accommodate the construction activities, and for the safety of the workers, we ask that you please be aware of the construction equipment and workers, and limit the use of the street during construction hours (7am – 7pm). The streets will remain open to vehicular travel throughout the project. However, drivers may encounter lane restrictions and possible minor delays during the construction. The Contractor will make every effort to provide access to driveways during the project and at the end of each day. Also, please be aware that travel within the construction zone will be at your own risk.

In order to provide the best possible asphalt surface, and for the safety of the workers, the street will be closed to ALL traffic during the placement of the second and FINAL layer of asphalt surface, and for a few hours after completion until the pavement has sufficiently cooled. The exact paving schedule for the FINAL surface is not known at this time, so please watch for progress updates on the Village web site, the arrival of the asphalt paving crew and vehicles, and notices posted on or near the street closure limits. In order to minimize any potential damage to the new asphalt surface, we ask your cooperation to restrict your vehicular travel on the newly paved street until the barricades and/or caution tape are removed and the street is again open to traffic.

Verleen Avenue is scheduled to begin in the coming weeks, and we anticipate that the work should be completed in approximately 2 – 3 weeks, weather permitting.

Weekly construction updates, as well as a copy of the plans are available on the Village of Waunakee website (<http://www.waunakee.com>) in the Public Works/Streets section.

We do not anticipate a disruption of U.S. Mail deliveries or Refuse pick-up during the resurfacing.

CONTACTS & NUMBERS

Village of Waunakee

Construction Manager.....Jim Madden
Office.....(608) 850-8500
Cell.....(608) 576-9558
Email.....jmadden@waunakee.com

PW Director /Village Engineer.....Kevin Even
